

Holiday Shores Sanitary District

Cross Connection Control Survey

Holiday Shores Sanitary District is required by the Illinois Environmental Protection Agency (IEPA) to have a cross connection control program in place to protect the public water supply from contamination. The IEPA also requires us to follow an approved **Cross Connection Control Ordinance** and to perform an annual **Cross Connection Control Survey** of all of our water customers. The purpose of the survey is to identify certain plumbing fixtures or special uses of the water supply in your home or business.

Thank you for helping us to complete the survey and comply with these important IEPA requirements. If you have any questions, please call 618.656.4933.

Customer: _____
Address: Street: _____ City: _____ Zip Code: _____

Service line supplying home is made of what material: PVC/HDPE/PEX _____ Copper _____ Galvanized _____, Cast/Ductile Iron _____

No

* Do you have a swimming pool and/or hot tub?

Yes

No

* Is the above filled by a permanent connection to the water system?

Yes

No

* Is your facility heated by a boiler?

Yes

No

The Illinois Environmental Protection Agency and the Illinois Department of Public Health require hose vacuum breakers to be attached to all outdoor faucets. These devices protect the plumbing system from being contaminated by any substance which might enter the water hose (lawn fertilizer, herbicide, soap, etc.) Hose vacuum breakers are available at most hardware stores or through your local plumbing contractor.

Please return this completed form by January 25, 2024 to the District Office at: 97 Holiday Dam Road, Edwardsville, IL 62025
